NATURE

Painel aglomerado revestido a melamina com faces estratificadas de alta resistência.

Melamine-coated particle board panel with high-resistance laminated sides.

Panneau aggloméré en mélamine avec faces stratifiées à haute résistance.

Vantagens

Portas com acabamentos modernos, sincronizados e de elevada rugosidade. Estratificado com mais de um papel de elevada resistência. Material 100% ecológico.

Advantages

Doors with modern finishes, synchronised and with a high roughness. Laminated with more than one high-strength sheet. 100 % ecological material.

Avantages

Portes avec des finitions modernes, synchronisées et à haute rugosité. Stratifié avec plus d'un papier de haute résistance. Matériau 100% écologique.

ACRÍLICO  
ACRYLIC  
ACRYLIQUE

MDF revestido a acrílico 1.4mm, contraface no mesmo material.

MDF coated with 1.4 mm acrylic, back in the same material.

MDF revêtu d'acrylique 1,4 mm, contre-face dans le même matériau.

**Vantagens**

Portas de Cozinha bastante resistentes, com brilho sem efeito “casca de laranja”. Facilmente reparável através de polimento. Ideal para projetos com design moderno.

**Advantages**

Very resistant kitchen doors with a modern design without an 'orange peel' shine effect. Easily repairable through polishing.

**Avantages**

Portes de cuisine très résistantes, qui présentent un design moderne avec un éclat sans effet « peau d'orange ». Facilement réparable par polissage.

ACRÍLICO EFEITO VIDRO  
GLASS EFFECT ACRYLIC  
ACRYLIQUE EFFET VERRE

MDF revestido na face com acrílico 2 mm e contraface em poliestireno liso à cor. Uma solução de portas de cozinha com as mesmas características estéticas do vidro.

Front in coated MDF with 2 mm acrylic and back in a smooth colour polystyrene. A solution for kitchen doors with the same aesthetic features of glass.

MDF revêtu sur le côté d'acrylique 2 mm et contre-face en polystyrène lisse colouré. Une solution de portes de cuisine avec les mêmes caractéristiques esthétiques du verre.

Vantagens

Inquebrável, resistente ao risco e reparável. Garantia de não descoloração, mesmo com o passar do tempo.

Advantages

Unbreakable, scratch resistant and repairable. Non-discoloration guaranteed over time.

Avantages

Incassable, résistant aux rayures et réparable. Non décoloration garantie dans le temps.

TOUCH

Aglomerado revestido a termolaminado mate na face e contraface HPL equilíbrio.

Front in matt thermolaminate coated particle board and back in HPL balance.

Aggloméré revêtu d'un thermolaminé mat sur la face et d'une contre-face en HPL équilibre.

Vantagens

Anti-impressão digital. Material reparável de elevada resistência ao risco, ao calor, à abrasão, fricção e ainda a solventes ácidos e reagentes domésticos. Carga bacteriana reduzida de fácil de higienização. Hidrorrepelente e à prova de mofo.

Avantages

Anti-fingerprints. Repairable material with high resistance to scratches, heat, abrasion, friction and even acid solvents and household reagents. Reduced bacterial load for easy cleaning. Water-repellent and mould-proof.

Avantages

Anti-empreintes digitales. Matériau réparable avec une haute résistance aux rayures, à la chaleur, aux abrasions, aux frottements et aux solvants acides et aux réactifs ménagers. Charge bactérienne réduite qui permet un nettoyage facile. Hydrofuge et résiste aux moisissures

LACADO  
LACQUERED FINISHING  
LAQUÉ

Painel de fibras de média densidade (MDF) lacado em alto brilho ou mate.

Lacquered medium density fibreboard (MDF) in high gloss or matt.

Panneaux de fibres de densité moyenne (MDF) laqué brillant ou mat.

Vantagens

O lacado permite a criação de espaços modernos que se destacam esteticamente. A cor poderá ser personalizada desde que apresentada no respetivo Pantone ou RAL. Acabamentos em alto brilho sem “efeito casca de laranja”. As portas são lacadas nas laterais, para um aspeto final uniforme, não sendo necessário orlas.

Advantages

The use of lacquered finishing allows the creation of modern spaces that stand out aesthetically. Colours can be customised as long as the corresponding Pantone or RAL is presented. High gloss finishes without an ‘orange peel effect’. The doors are lacquered on the sides, for a uniform final look, thus not requiring edge banding.

Avantages

Le laqué permet la création d’espaces modernes qui se démarquent par son esthétique. La couleur peut être personnalisée tant qu’elle est présentée dans le Pantone ou le RAL respectif. Finitions de haute brillance sans « effet peau d’orange ». Les portes sont laquées sur les côtés, pour un aspect final uniforme, ainsi les profils de finition ne sont pas nécessaires.

## TAILOR-MADE SOLUTIONS

Desenvolvemos produtos personalizados à medida dos seus projetos. Somos dotados de tecnologia de ponta capaz de orlar peças redondas e curvas com um acabamento ímpar - as juntas de cola tornam-se invisíveis, obtendo-se peças de mobiliário com um design diferenciador. Temos a capacidade de cortar e maquinar todo o material. Fornecemos materiais em medidas standard, ou nas medidas adequadas a cada obra. O resultado são produtos que lhe garantem uma rápida instalação, criando projetos que fundem a funcionalidade e a estética. Na Bloma Phenolics, temos ainda a capacidade de lhe entregar um serviço chave na mão, com a garantia de produção e instalação no espaço que desejar.

We develop customized products tailored to your projects. We are equipped with state-of-art technology capable of edge banding round and curved pieces with a unique finish - the glue joints become invisible for a distinguishing furniture design. We have the ability to cut and machine all material. We supply materials in standard sizes, or in the size appropriate for each project. The result are products, that guarantee modules and furniture in compact laminate that guarantee quick installation and an excellent end result. At Bloma Phenolics, we also have the ability to deliver a turnkey service, with the guarantee of production and installation in the space you desire.

Nous développons des produits sur mesure adaptés à vos projets. Nous sommes équipés de la technologie de pointe capable de bande de chant des pièces rondes et courbes avec une finition unique - les joints de colle deviennent invisibles, obtenant des meubles au design différent. Nous avons la capacité de couper et d'usiner tous les matériaux. Nous fournissons des matériaux dans des mesures standard, ou dans les mesures appropriées pour chaque chantier. Le résultat est des produits qui garantissent, des modules et des meubles en compact phénolique qui garantissent une installation rapide et un résultat final excellent. Chez BlomaPhenolics, nous avons également la capacité de fournir un service clé en main, en assurant la production et l'installation dans l'espace que vous souhaitez.
